**Subject:** >> RE: Planning Application Consultation - S UTT/25/2203/SO [SG39973]

Our Ref: SG39973

Dear Sir/Madam

NATS has assessed the outline proposal and in principle anticipates no impact from the development. NATS does note that an element of commercial premises are included in the proposal and it should be noted that should any of these be isolated and/or rise to a significant height (above 15m), the potential exists for an impact on the S10 radar. The S10 radar is located at Stansted airport but is operated by NATS En-Route LTD and provides surveillance data to various stakeholders. While NATS deems the potential for an impact to be quite low, it does wish to raise this possibility. NATS anticipates further planning applications to provide the information required for detailed assessments, but in the interim it will be happy to review any proposal or engage with developers in respect of any guidance, who can make contact via the NATS Safeguarding Office.

Yours faithfully

**NATS Safeguarding**
